

Albatross by Jonny Berliner

Capo on 2nd fret

Dmaj7 **E9**

Albatross, I love to watch you in the sky,

Eb9 **A13**

When I see you on the breeze, floating gracefully with ease,

Dmaj7 **A13**

All I simply do is sigh, aaaaaaaah.

Dmaj7 **E9**

Albatross, you rarely come down from on high,

Eb9 **A13**

Except for when you feed, or every other year to breed,

Dmaj7 **D7**

And finally, to die.

Am **D7** **G** **Cmaj7**

Oh your wings are not evolved for flapping,

Bbmaj7 **A7** **Dmaj7** **D7**

Though no other bird has wings as wide,

Gm **C7** **F** **Bbmaj7**

So you may fly a little crappy,

A7 **Bbmaj7** **A13** **Bb13** **A13** **Bb13** **A13**

If there isn't any wind to give the upthrust to your wings that lets you glide.

Albatross, I love to watch in the sky,

For if I see you from below, I know the wind will always blow,

And I'll sail on with a sigh.

Albatross, you will glide 5000 miles,

Before you dive in an attack, to catch a squid that make a snack,

For your chick to make it smile.

Oh, you fall in love so madly,

So, so madly that you mate for life,

But now your numbers dwindle rather sadly,

For you may never love again, if your mate is tangled on a fishing line.

Albatross, I love to watch you in the sky,

When I see you on the breeze, floating gracefully with ease,

All I simply do is sigh, aaaaaaaah.

Albatross, you rarely come down from on high,

Except for when you feed, or every other year to breed,

And finally, to die.
